

**Witness testimony for Unit50v3: Repairing and Maintaining Masonry Structures in the Workplace**

Learner name: .....

Within the last three years the above named, at various stages during construction work, demonstrated the following:	Initials
Repairing and maintaining existing brick and block and/or vernacular style structures using hand and portable power tools, measuring, marking out, cutting, removing, laying, positioning and securing to contractor's working instructions, for at least three of the following:	
– match existing materials	
– continue existing bonding	
– match existing quality of structure	
– form openings	
– prop existing walls and floors	
– form internal and external angles.	
Working to the required specification and within programme.	
Comply with information and/or instructions derived from risk assessments and method statements.	
Checking the information they have been given and identifying the type, size, position and quantity of materials required.	
Organising their own work, requesting the materials and plant required and awareness of the associated health hazards.	
Reporting any defects or inaccuracies in information to their supervisor and agreeing and implementing corrective action.	
Protecting the surrounding areas, other work, materials and equipment from damage that may be caused by their work.	
Appropriate PPE for the task worn at all times in compliance with the company's health and safety policy and safety signs.	
Aware of and can identify actual and potential hazards in the workplace and report these to their supervisor to agree and implement corrective action.	
Use and maintain hand and power tools, and equipment.	
Tools and equipment maintained and left safe and secure.	

This witness testimony is true and correct to the best of my knowledge.
